

St. Theresa Girls Secondary School

P. O. Box 16811

Arusha, Tanzania

Date: 11th / 9 / 2008

Dear Alex Rios,

How are you? I hope that you are fine there in your school. I was so pleased to receive your letter. My name is Sarah Vincent - I am a Tanzanian and I live in Arusha in the northern part of Tanzania. I am in form one (grade 8) in a girls secondary school. My hobbies are swimming, singing, dancing and reading novels. I also like hiking during the evening.

My school is a newly launched school but it's among the best schools in Arusha. It's located a few kilometers from Arusha town. The school offers subjects like Mathematics, Geography, Physics, Language, History and Civics. My best subjects are Mathematics and Physics. But according to the curriculum in our country, students can choose the subjects that they like when they are in grade ten (form three), so the students who are below grade 10 take all ten subjects including the computer classes. In my school we have two free periods in a week. Also we have holidays for a month after every five months in school. Obviously there is a lot of things to tell you about my school and myself but I would rather give you the opportunity to tell me more about Vistamar school and you.

Lastly I would like to send me your photograph, address or phone number if possible so as it can be easy for me to communicate with you when I'm in holiday. My Address is 14731 ARUSHA, TANZANIA.

Yours

Sincerely
Sarah.
